LOGIWARE

IDS Premiere Partner

The highest level of client satisfaction is achieved by performing at the highest level.

Integrated Digital Systems (IDS) has been your trusted neighbor for over a decade and will continue to be in the years to come. Through the years, we have contributed to the success of real estate professionals through value added, client focused solutions.

Whether you are a small title company with a staff of less than 15 or the largest residential real estate brokerage in the nation with tens of thousands of sales associates in your family, LW/IDS will provide secure, scalable, web accessible, document management solutions that will be tailored to your company's exacting needs and high standards.

Collaboration and Communication Solutions

Two certainties cannot be avoided in the Real Estate industry: towering mountains of seemingly endless paperwork and scarce IT resources. Together, these two factors can lead to a breakdown in communication and in

the worst case a negative client experience. In a time of easing markets, better communication and connection with potential clients has taken on an especially

important role. To keep your company leading the pack, LW/IDS can outfit your team with LW/IDS enterprise content management technology. LW/IDS web based technology will allow your authorized employees, clients, and partners to collaborate securely; anytime, from any internet connection.

Document Conversion, Management and Access

Your project critical documents are far too important to be misfiled, mislabeled or lost. From aged, tissue thin, blueprints and plats to your most current contracts, legal documents, and large aerial maps, LW/IDS will provide on or off-site, secure, document

conversion into any format. Bar coding technology ensures that every one of your documents

is instantly and accurately filed. LW/IDS web based storage products will allow you to centralize, search, control, classify and track electronic business files, regardless of format. In a satellite office, in the field with a client or at an open house; with LW/IDS solutions you are able to instantly and securely access any document; any time; anywhere; from any internet connection.
